Dear Mr Clay

Thank you for your letter and enclosures of 5 September.

Car jumping is a subject which has attracted various record claims over the years. The great editorial difficulty almost invariably stems from the absence of a sufficiently widely agreed set of ground rules for record attempts and this prevents one from reaching general record conclusions.

By all means feel free to submit a claim for billiard table jumping. Provided that we are comparing like with like, we should be delighted to have an authenticated claim. Some notes on verification are attached herewith.

As I am sure you will wish to retain the colour photographs in your own possession they are returned herewith.

With best wishes,

Yours sincerely

COLIN SMITH
Assistant General Editor
Guinness Book of Records
